

PHOTOSHOP ADVANCED

Course length: 2 day (12 hours)

Overview: Adobe Photoshop is the de facto standard in the design industry. This class will take you beyond the basics to show more advanced concepts in Photoshop, including Smart Objects, advanced compositing, and properly outputting documents for the web and print.

Prerequisites: Photoshop Introduction Class or working knowledge in all topics covered in the Photoshop Introduction Class.

Note: Students will be provided with a flash drive to save their exercise files.

All Adobe classes are taught by Adobe Certified Instructors.

COURSE OUTLINE

Day One

1 Advanced Compositing

- Getting started
- Arranging layers
- Using Smart Filters
- Painting a layer
- Adding a background
- Using the History Panel to undo tasks
- Upscaling a low-resolution image

2 Painting With the Mixer Brush

- About the Mixer Brush
- Getting started
- Selecting brush settings
- Mixing colors
- Creating a custom brush preset
- Mixing colors with a photograph

3 Editing Video

- Getting started
- About the Timeline panel
- Creating a new video project
- Animating text with keyframes
- Creating effects
- Adding transitions
- Adding audio
- Muting unwanted audio
- Rendering video

4 Working With Camera Raw

- Getting started
- About camera raw files
- Processing files in Camera Raw
- Applying advanced color correction

Day Two

5 Preparing Files for the Web

- Getting started
- Using layer groups to create button graphics
- Automating a multistep task
- Saving assets with Adobe Generator

6 Producing and Printing Consistent Color

- Preparing files for printing
- Getting started
- Performing a “zoom test”
- Identifying out-of-gamut colors
- Adjusting an image
- Converting an image to CMYK
- About color management
- Specifying color-management settings
- Proofing an image
- Saving the image as a CMYK EPS file
- Printing a CMYK image from Photoshop

7 Printing 3d Files

- Getting started
- Understanding the 3D environment
- Positioning 3D elements
- Printing a 3D file
